

PHR: Enabling the Whole System Event
Thursday 24th January 2019

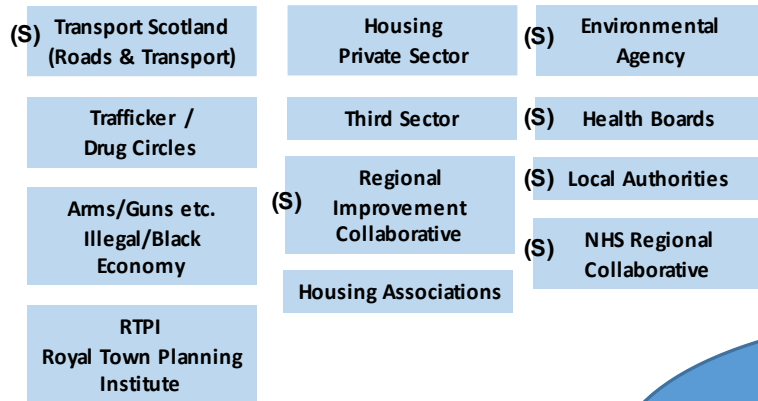

Table/Group: 4

Session 1: Creating the conditions for Whole System Working

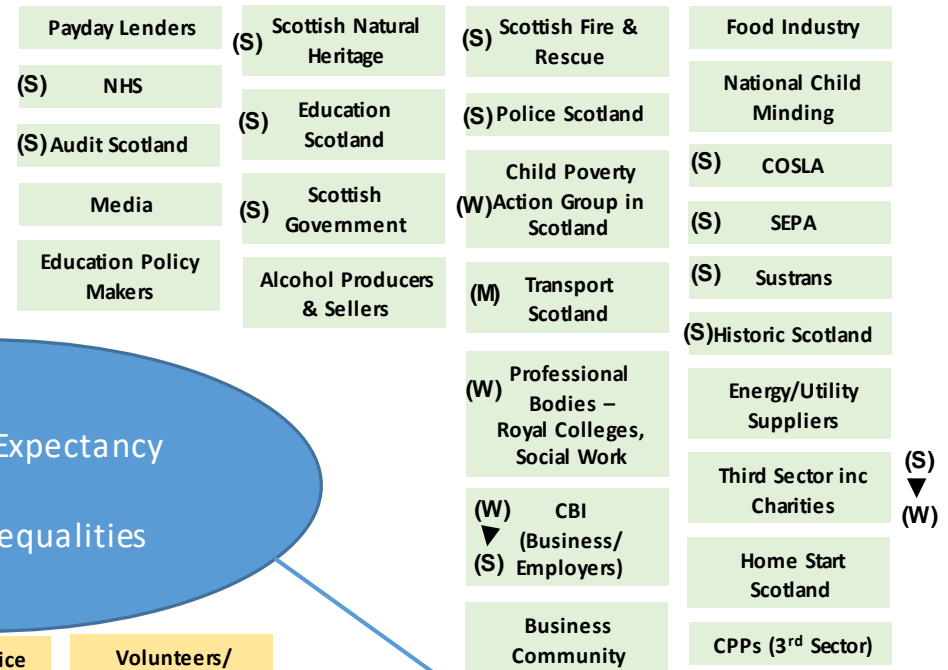

Key: strong (S), moderate (M), weak (W) or no engagement (N)

T4

Regional

National

Local

Session 2: Developing the Plan

Proposal to adopt a “Place” based approach

	Who	What	How	When	Where
Communication	Media and People must be invested and not seeking. Must develop and engage in the story telling of our “journey of change” which can feed into development plans.	How can we use the Place based approach to act as a whole system enabler? Sharing of good/best practices.	Replicating local conversations at a national level. Creating an inclusive atmosphere Establish shared language and values.	It’s already being used but requires toolkits, strategy and sponsors for scaling with a consideration towards consequences.	Learning what makes a place “great” and working with that
Leadership	Politicians Senior/Exec. Leaders (All Sectors) Middle Managers (Distributed Leadership + Ownership) Planners (All sectors)	Cross sector action and leadership essential. Collective approach needed centred around the community.	Be able and confident to challenge	All LA’s have signed up to Leadership Summit 2018	
Structures	Professional Bodies (Dilute/challenge silo views)	Would demand collaboration Decide what methodologies can help – design thinking.	Place Standard Tool and Principles already established. Counter Siloed thinking/practice/design		Learning from successes in Whole Systems locally and internationally.
Culture and Values	Academia (Data)	Money flows to communities based on need to align with PH Priorities Aligning council plans	Holistic approach to understanding & supporting needs of communities. By providing a focus on future generations Building and nurturing contacts and relationships. Establishing and welcoming new ways and approaches		
Workforce	Frontline Staff (Enactin/Effecting Change) Citizens/ Communities (Ownership) SEPA/3 rd Sector Engaged	What toolkits would be required?	Life plans that consider “life courses” and community needs.		Spatial Planners/EHOs trained in the use of Place Standards.
Relationships	International Interest – Dutch Version Endorsement from WHO		Encouraging Self-Agency providing citizens and communities with a voice.
